Launched by INMALO in the UK a decade ago the MOTOFOG range provides innovative, effective dust suppression with on-board diesel or petrol engine options (no generator required), just plug in the water and you're good to go.

The 5 models have a range from 15 to 55m throw. They are light and simple to move/transport. We have units for Sale and Hire and we always have a number units available in stock.

- Powerful units offering from 15m - 55m throw
- All Motofog models can draw water from a tank
- Robust design with long warranty
- Easy to move around site by hand, forklift or chains
- The new MFX20 can be mounted on an IBC or on wheels
- Optional remote control
- In stock in the UK
